

1999 INDEX

If you've been keeping all your copies of *Computeractive*, you've got a great source of reference material. The only problem is finding the item you need. To help out, here's a pull-out index to every edition of *Computeractive* published during 1999. This index is divided into sections for Workshops, Features and Reviews. Within these, topics are listed alphabetically. The numbers after each topic show the issue number and then the page number. For example, '32-24' means issue 32, page 24. Issue numbers are printed on the top right corner of each front cover. We published a 1998 index in issue 23.

If you are missing any issues, you can buy back issues for £1.95 each by calling 01858 438881. To keep your issues safe, binders are available for £5.95 each from 01858 438883.
